A Double Protection

In addition to fitting perfectly without a gap, the storm curtains on Buick open models are provided with a weather strip or flap which seals the joint so that wind or rain cannot penetrate. Buick open cars, with the curtains in place, have no cracks for cold to penetrate. They are as nearly weather tight as any open car can be.

Ask about the G. M. A. C. Purchase Plan, which provides for Dejerred Payments

Driving Comfort in Winter

The Buick "Model 45" Six Cylinder-\$1195

As complete as has been the development of the enclosed car, Buick designers have not neglected to improve the open type of car, building into it a measure of comfort, convenience and weather protection surpassed only by the more expensive closed vehicle.

Protection against wind and snow is assured by the snugfitting storm curtains that open with the doors. The Buick design of storm curtains with a special weather strip provides a coziness, comparable to that of any closed car, while windshield wiper and tight fitting windshield, adjustable from within, make driving safe and comfortable.

Added to this, and equally important in winter driving, is the splendid performance that a Buick car always produces-its constant and surplus power-its roadability and perfect balance and its unquestioned dependability.

For cold weather driving there is no superior to the Buick open cars. The Buick Line for 1923 comprises Fourteen Models:

Fours 23-34, - - \$865 23-35, - - - \$885 23-37, - - \$1395 Sixes 23-44, - - \$1175 23-47, - - \$1985 23-45, - - 1195 23-48, - - 1895 23-54, - 1935 23-49, - - 1435
